

# Recovery by the Numbers

Rusk Rehabilitation is a national leader in treating patients in need of comprehensive medical rehabilitation. Our Comprehensive Integrated Inpatient Program is accredited by the Commission on Accreditation of Rehabilitation Facilities. This accreditation holds us to the highest international standards in rehabilitation.

"All the doctors showed me patience and sincere concern for my welfare. My rehab doctor was enormously helpful. Her care was excellent - A knowledgeable and compassionate doctor!"

"The pulmonary doctor was great. She was attentive and forthcoming. An excellent, caring physician."

"I cannot imagine more respectful treatment. I never had to ask for anything. I was sometimes fearful and the nurses always reassured me that things would work out well, doing so with kindness and compassion."

"Nurses and nurse's aides were very caring in their treatments!"

"Both Physical therapists were wonderful. We discussed my goals - stairs and getting my strength back. Both had their goals for me and they also allowed me to choose some strength exercises. When I left rehab, I felt confident about going home."

"Physical therapy managed to help me to regain my strength and be able to be more independent."

"My occupational therapist was extremely helpful kind and caring. She gave me excellent suggestions for self-improvement."

"The speech therapist was a superb instructor. She was able to relax people with her sense of humor, knowledge and precise instruction. A pleasure to WORK WITH!"

"The speech therapists were great. On day 1 my voice seemed stronger. The speech exercises helped to make my voice stronger. Also, as my whole body got stronger from PT and OT so did my voice. My voice is now back to normal."

"Progressed from tube feeding to solid food, my speech therapist was sensitive and patient in encouraging progress."

"The Psychologist was very helpful in making me feel confident in my long recovery process."
