

Many patients find it really helpful to talk with a Social Worker about their experience with cancer. Tell us what's going on, and we do our best to provide information, support, individual/group counseling and important referrals.

## COMMON REASONS WHY PEOPLE CONTACT US

- Financial issues
- Employment concerns
- Transportation needs
- Home meal delivery, home health care, and medical equipment
- Support in communicating with family, friends, or medical team
- Caregiver issues
- Making decisions for future medical care (advance directives)
- End-of-life issues and hospice coordination
- Brief counseling for trouble coping and adjusting to your diagnosis
- Referrals for longer-term mental health counseling
- Referrals to support groups
- Referrals to other support services in your community
